Creative Web Designer at Dart Creatives, adept at transforming concepts into dynamic websites using HTML5, CSS3, and JavaScript. Demonstrated expertise in responsive design and client communication, ensuring brand consistency. Committed to delivering exceptional digital experiences that resonate with users.

SKILLS

- HTML5 : Writing clean, semantic, and accessible markup
- CSS3 : Creating visually engaging designs with transitions, layouts, and effects
- Bootstrap : Building responsive, mobile-first websites with modern UI components
- JavaScript (Basic) : Adding interactivity (modals, toggles, sliders, etc.)
- GSAP (GreenSock) : Crafting engaging animations and scroll-triggered effects
- Responsive Web Design : Optimizing user experience across all devices
- Brand Consistency : Ensuring design aligns with brand identity
- Client Communication : Translating ideas and feedback into actionable designs

WORK HISTORY

Web Designer

Dart Creatives, Noida, India

July 2024 - April 2025

- Planned website design, converting mockups into usable web presence with HTML5, JavaScript and CSS
- Coded websites using HTML5, CSS, JavaScript and GSAP.
- Provided front-end website development using WordPress.
- Oversaw technical issues and troubleshooting requests to resolve user problems.

EDUCATION

Bachelors of Arts, 2022

Delhi University, New Delhi, India

HOBBIES

I have a passion for reading mystery and suspense novels, which enhances my attention to detail and analytical thinking—skills I apply when designing intuitive and engaging websites.
